ADDRESS : Bir Uttam AK Khandakar Rd, Mohakhali, Dhaka-1213
LINKEDIN : Swaraj Chandra Biswas
PORTFOLIO:Swaraj Chandra Biswas

CAREER OBJECTIVE

Motivated AI/ML Engineer with hands-on experience in Machine Learning, NLP, LLMs, and AI-driven application development, complemented by strong full-stack software development experience, proficient in Python, Java, C/C++, PHP, and JavaScript with strong experience in FastAPI, Spring Boot and database systems including MySQL, Oracle SQL, Firebase, and SQLite. I have hands-on experience in Android, iOS, and web development, enabling a full-stack understanding and the ability to build well-integrated systems. I enjoy creating intelligent, data-driven features that enhance backend services.

WORK EXPERIENCE

- Millennium Information Solution Ltd. as Assistant Software Engineer**
January 2026 - Present
- Optimized a **FastAPI**-based **face verification service** for **AIBL's eKYC** (Electronic Know Your Customer) solution, improving face-matching accuracy and verification speed by nearly 10%.
 - Developed a **nano-financing application** for **AIBL**, building the backend with **Spring Boot** and the frontend using **Angular Material UI**. Implemented a **credit risk scoring** engine using an ensemble approach, incorporating transaction history and personal data to support automated credit risk assessment.
 - Automated banking transactions for **AbabilNG's** Internet Banking using **Spring Boot** and Spring AI **MCP tooling**, enabling transaction workflows through a chat-based client.
 - Developed an AI-powered **customer support agent** for **CAAT** (Tahqiq) using **Flowise**, enabling automated customer assistance and query handling.

EDUCATION

B.Sc. Eng. in Computer Science and Engineering
Khulna University of Engineering & Technology, Khulna (KUET) (Jan 2020 - Sep 2025)

PROGRAMMING EXPERIENCES

- 900+ problems solved across platforms
- Secured **1010th position** in the **CodeJam Farewell Round A, 2023**

CERTIFICATES

- Certified as a Full-Passer in the Fundamental Information Technology Engineer Examination (FE), **ITEE Exam**, Oct 2023.

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENT

- General Secretary**, Greater Rangpur Dinajpur Association, KUET 2024-2025
- Treasurer**, Hardware Acceleration Club of KUET 2024-2025
- Class Representative**, Final Year 2024-2025

SKILLS

- Programming Languages**
- Python, Java, TypeScript, JavaScript, C/C++
- Machine Learning**
- scikit-learn, NLP, PyTorch, TensorFlow, Hugging Face, LangChain, vLLM, Ollama, CrewAI, n8n
- Development**
- FastAPI, Spring Boot, Angular, React, Flask, Laravel, HTML, CSS
 - Android: Java, iOS : Swift
- Database**
- PostgreSQL, MySQL, Oracle SQL, pgvector
 - MongoDB, Firebase
- Tools & Platforms**
- Git, Docker, Kubernetes, GitLab CI/CD, Portainer, Keycloak, Flowise
 - Linux Server Administration, SSH, Apache Kafka, Redis

PROJECT HIGHLIGHTS

- Ababil AI - (Voice-Based Banking Automation)**
- Developed a **voice-enabled banking system** in **Java** using **Spring Boot** and AI **MCP tooling** for automated financial transactions.
 - Implemented **fund transfers** (own & interbank), **credit card payments**, and **mobile recharges** with OTP-based security.
- BuildForge KUET Teachers' Edition (Departmental Project)**
(2nd Best Innovative Ideas by KUET, 2024)
- Automatic Bill Management App
 - Automated a **large-scale** teacher billing process by extracting and structuring unstructured billing data using **OOP principles**.
 - Built a Python (**Tkinter**) app with a **FastAPI** for bill generation and English-to-Bangla (BDT) conversion. Integrated **SQLite**, **SMTP** services.
- BanglaNERFusion - Transformer Ensembles with CRF**
(3rd Best Abstract, IEEE CS BDC Summer Symposium 2025)
- Designed a **Transformer-based ensemble architecture** combined with **CRF** for Bangla Named Entity Recognition.
 - Achieved **97.6% accuracy** with **90.5% F1**.
 - Implemented deep learning pipelines using **PyTorch**, **HuggingFace**.
- PandaMart**
- A full-stack e-commerce web application using **React (Vite)** and **Next.js**.
 - Express.js** + **MongoDB**, **REST API** with authentication, products, cart, and orders.
 - Implemented search, checkout, order tracking, admin uploads, and responsive UX.
